

# 2010 SESSION INFORMATION

---

## MY PHOTOGRAPHIC STYLE:

My style is simple, clean, and fun. I love to capture memories outdoors, using natural light. I find inspiration in working with people of all ages. I'm not big on posed photos. I like to have fun with portrait sessions to bring out the genuine and beautiful personalities of my clients. My attention to detail, both during the session and throughout the post processing, assures the highest quality images that will capture your moments in time. I want you to be nothing less than thrilled with the entire process!

## SCHEDULING A SESSION:

In order to provide the best possible quality experience for each client, I limit the number of sessions I make available on a monthly basis. I recommend booking your session as early as possible to ensure availability. I can be contacted via email or phone to book a session. I may need to reschedule your session due to weather conditions. If this happens, a 24-hour notification of this change will be given.

## SESSION LOCATIONS:

I shoot exclusively on location, utilizing natural light as much as possible. This allows me to be able to provide unique and custom images for every client. Whether it be in your home, a country setting or an urban one, I will always be sure that the surroundings enhance the beauty of the images.

## SESSION LENGTH:

Sessions last approximately 1-2 hours. Newborn sessions may take up to 3 hours. I will not rush any session, and will stay longer if needed to capture the very best images.

## SESSION FEE:

The session fee is due at the time of booking. This session fee is non-refundable and includes up to FOUR people. Additional people can be added for an additional charge. The session fee includes my time, a pre-session phone consultation, and professional editing of proofs. Costs for prints, Standout Mounts, Canvas Gallery Wraps, and/or digital images are NOT included.

## PROOFS:

You can expect 20-30 of the very best images from your session to be post-processed and shared with you. Only images that meet my quality standards make the final cut. Rest assured that I will show you the very best from your session! Please allow up to two weeks to view your session proofs. You will receive a password protected on-line gallery. Prints, Standout Mounts, and Canvas Gallery Wraps can be purchased a la carte from your on-line gallery. Galleries will remain posted for 60 days following your session date. Anyone can view the gallery and purchase from it as long as you have provided them with the password.

## WHAT TO WEAR:

Clothing is a very important consideration when planning your session. Layered clothing and accessories (hats, scarves, rain boots, etc.) often work well in photos because they bring in elements of texture and color. It's best to avoid busy patterns, logos, and clothing with characters. Also, siblings generally should color coordinate, but not match exactly.

## REWARDS:

I strongly believe that word-of-mouth is the best advertising. If you refer a client to Davis Creative Services and they book a session, you will receive a \$25.00 gift certificate towards your next session fee. You will receive your gift certificate after the referral session has taken place.
